Pubic Square Renovation UPDATE

Work continues at a feverish pace on the Public Square Renovation in downtown Cleveland in preparation for the Republican National Convention this summer. The Cleveland Marble Mosaic Company has been non-stop throughout the winter, working in tents, installing the paving blocks on beds of a custom silica sand blend from R.W. Sidley, Inc. When finished the pathways will include over 40,000 square feet of hand-set granite pavers, set in wavelike double arc pattern evoking the feeling of a European city.

Allan Turner

Allan Turner has been working in the IT field since 1988. He started his career in the Navy where he served 6 years, 2 in school and 4 on board the USS Acadia AD-42. He was a part of Dessert Storm, Dessert Shield and the first Iraq War. Allan has worked for big corporations like Avery Dennison as well as small companies, the one thing that is always constant is the job he does. That fact remains true for him since joining Sidley. Allan has 6 kids, 4 girls and 2 boys. For fun he

Pro/Angle® On The Move

Pro/Angle® bunker sand being loaded into closed hopper rail cars at the Grand River Railway for a long trip across the country for a bunker renovation. R.W. Sidley, Inc. offers logistics services to expedite the delivery of our products to wherever you are by truck, rail or barge.

boxes and kick boxes and has been an assistant coach for the sport for over 12 years.

Pro Topdressings

R.W. Sidley, Inc. the manufacturers of Pro/Angle® the 100% original angular bunker sand is proud to introduce Pro Topdressings a line of topdressing sands designed to meet USGA® specifications. All Pro Topdressing sands are pure silica, available in three (3) sizes from fine to course and both wet or dry. Topdressing provides many benefits including reducing the thatch layer in grass to improving soil conditions. Pro Topdressing can be purchased either bagged or bulk and delivery is available.
