

JUNE 2018

R.W. SIDLEY, INC. NEWSLETTER

The picture below was given to us at our recent company golf outing, by a friend who cleaned out their archives of old photos! What a find! From what we can gather R.W. Sidley, Inc. sponsored a green at a charity fundraiser in Chardon, OH, and the charity flew Arnold Palmer in for the event. The year was 1971, love the go-go boots!

Perry High School, FieldTurf Installation

June 2018, Perry High School in Perry, OH, replaced its existing artificial turf football field with the installation of new artificial turf manufactured by **FieldTurf**.

The FieldTurf installer (**Vasco Sports**) removed the existing turf and reclaimed a large percentage of infill material to be used on the new turf.

The infill system is comprised of crumb rubber and high purity sand produced by R.W. Sidley providing the cushioning to absorb impact. Additionally, the infill provides the foundation to the field performance by offering traction for players to cut, plant and release like they would on natural grass.

The sand and rubber infill is placed in layers using a mechanically operated spreader then the field is mechanically brushed and groomed over many layers of infill until the recommended infill level is achieved.

Newbury Builders Center Renovations

If you haven't been to our Newbury, OH, Builders Center in a while you may have missed the renovations that have been taking place over the past several months.

One of the renovations was to the

floors in the showroom area. Two **Increte System** products were used. The top photo features **Metal FX** an interior epoxy-flooring system. The entire showroom area was first leveled with **Level Top SP**, then the Metal FX (walnut) was installed and sealed with **Increte High Performance Epoxy**. The other system used was **Increte Granite Coat**. Both systems are durable and made to perform in high traffic areas.

If you are in the Newbury area, stop by and see the transformation these products have made to the showroom. All Increte System products are available at all our **Builders Centers**.

R.W. Sidley, Inc. Golf Outing

Last week R.W. Sidley, Inc, hosted our Summer Golf Outing at Painesville Country Club, Painesville, OH. The course was beautiful, the weather was beautiful and golf was enjoyed by all!

The day started with an 18-hole scramble, lunch at the turn and finished with a catered steak dinner in the club house. There were individual prizes for golf as well as raffle prizes that were awarded to participants.

R.W. Sidley, Inc. would like to thank all our customers and friends who joined us and we hope to see at our next event in late August.

Lake County Fair

The 163rd Lake County Fair
