## Gold 1 Garage

The First Project in the World Designated a Parksmart Gold Garage

The Gold 1 Garage located on Pittsburgh's North Shore, between the Heinz Field and PNC Park. This fast growing area was in need of additional parking for both events and daily parking requirements. The new 6-story, 1,000 car precast garage was designed by **WTW Architects**. Sidley Precast Group was proud to be part of the award winning project and produced, delivered and erected all the precast components on the garage.

**Parksmart**—formerly Green Garage Certification—the world's only rating system designed to advance sustainable mobility through smarter parking structure design and operation. Developed by industry experts, the Parksmart framework guides projects toward innovative, solutions-oriented strategies.

On October 4, 2018, the Gold 1 Garage, the first project in the world designated Parksmart Gold, in plaque dedication ceremony at the garage.

## Trade Show Season

As the seasons change, so changes the shipping season to trade show season! With Pro/Angle's loyal following across the US and Canada, we take the show on the road to support various turfgrass and professional organizations that support the golf industry. We produce the premier bunker sand in the golf industry along with precision screened, kiln dried topdressings. Our aim during trade show season is to educate, inform and introduce ourselves to the industry while supporting and networking with our customers and industry partners.

See Pro/Angle with us and our distributors on tour at the following events this fall and winter:  
**Carolinas Golf Course Superintendents Association Show** – Myrtle Beach, SC, November 12-14, 2018

**Ohio Turfgrass Foundation Show** – Columbus, Ohio, December 4-5, 2018

**Indiana Green Expo** – Indianapolis, Indiana, January 10-11, 2019

**Ontario Golf & Superintendents Association Show** – Blue Mountain, Ontario, January 15-17, 2019

## Willoughby Eastlake Schools

R.W. Sidley, Inc. is supplying split face block for new **Willoughby Eastlake North High School** and the **Longfellow Elementary**. The architect for the projects is **Then Design Architecture** in Willoughby, OH and the masonry contractor is **Valentine Contractors, Inc.** in North Canton, OH. The split face block were custom made for both projects to meet the architect's specifications. Both projects are being built on the sites with existing operating schools which resulted in some logistic challenges with both on-site storage room and delivery hours, but nothing we couldn't handle.

For more information on all our block products please contact:
